“ A few things I can promise about Dixie are that she cherished her loving family, that she was an absolute sweetheart to her friends, and that she believed in fair treatment of workers. She was super smart and funny too. I worked closely with Dixie for years - remotely when she was an outstanding Service Rep in Jacksonville, and locally when she did such a great job with MFN1 orders, hurricane orders, and nextGen VoIP orders in Tallahassee. I also loved playing cards with her & other friends at lunch when time permitted. She and Dan were so in love. (And their cats.). She was a “must” for the Thanksgiving luncheons. She never told me anything was too hard to accomplish. Her customer contacts knew they could always trust her. I honestly never heard her say a word out of place. I heard stories of car-selling, classic train trips, loyal and good-natured children doing the right things with their lives... I wish I could write more beautifully about her. Dixie is a friend to be proud of forever, and I'll miss her whenever my heart forgets that she won't ever really leave us. With all my love and respect, Bob Katte
