“ I had the pleasure of knowing John through his work with Buz Ireland at Aquafeatures. John maintained the fish ponds at my home, which I only purchased three years ago, so we met by chance, and I lacked the time to know him well, but it didn't take long to know who he was.

His kindness, creativity, intelligence, and thoughtfulness were immediately apparent, as were his motivations for working so well with his customers. He was doing so much more than business. He was making the world a better place with everything he did. He struck me as a mystic in a way, someone who conveyed a rare sense of peace with both the world and himself.

April, we have only spoken once on the phone, but please accept my deepest condolences. I had planned to be at the memorial, but a friend unexpectedly was visiting town and needed a place to stay on the evening of the memorial, for which I apologize. I wish I could have attended.

I am truly grateful for having known John and wish you and your children much strength. Please let me know if can ever do anything to show my gratitude.

“ Sister, there's not enough words to describe how much John was loved and will be missed. We've been friends a long time over 30 years. I miss his flying eagles trick. When I tried to do it I just threw the quarters everywhere and y'all would just laugh and laugh. God bless you and the boys and if you need anything just let me know.

“ April, I don't think I can adequately express my sympathy to you and Logan, as well as the rest of your sweet family. To say I'm sorry isn't enough. John was an awesome individual...so friendly and sweet. I can hardly wait to wrap you up in my arms and 1 of my hugs! I can use 2 arms now! I just live right down the road from you so when you want one, let me know and I'll come and visit you.
